

Southwest Florida Water Management District

Hi!

Remember me? I am Ripply.
I will help you learn more
about water.

We will read stories.
We will play games
and color. It is all
about water.
Let's start!

Water Wows!

Almost three-fourths of the human
body is made up of water.

WOW!

The  in our world is on a trip that never ends! The  warms  in our oceans, rivers, lakes and ponds. The  moves up into the air and makes . When  falls from the , it goes to many places. Some  travels back up into the air. Some  travels down to the earth. Some  may even move deep underground.

The wonderful trip that  takes is called the  cycle. It is happening right now!

The End

Color the Water Cycle

Use the numbers below to color the picture.
Then draw arrows to show water moving in the cycle.

Who Drank My Water?

Living things have used the same water for a long, long time. Help Ripply find his way to the bay. Look for things along the river that may have used your water.

You may be surprised!

NATIVE AMERICANS

Ripply wants you to know about ways to save water. Saving water makes Ripply happy. Place a line under each sentence that tells a way to save water. Then draw a BIG smile on Ripply.

1. Water your lawn every day.
2. Take short showers.
3. Put litter in the toilet.
4. Turn off the water while brushing your teeth.
5. Wash only full loads of dishes in the dishwasher.

I Can Save Water

Draw a picture to show one way to save water.

Water Watcher Activity

Find out how much water is in your body. It is fun!

Directions:

1. Stretch out on your back on a clean sidewalk or on a large piece of paper.
2. Ask a friend to draw around the outside of your body with chalk or crayon. This will make an outline of your body.
3. Stand up.
4. Draw a line below the shoulders of your outline.
5. Color the area below

What Does Every Living Thing Need to Live?

Find the answer by crossing out all the letters that appear 3 times. Circle the letters that are left. Write the answer on the spaces below.

O	B	S	O	B	K	H
